

Working Group Collaboration Sessions

Group Number 1

What are the priority sectors identified in the country INDCs?

- ❖ Agriculture/livestock/fisherie
- ❖ Energy
- ❖ Foresterie
- ❖ waste

What are the past, ongoing and planned initiatives on Low Emissions Development in the country that align with the INDCs? Also list partners involved in these initiatives

- ❖ Initiative MDP (HYSACAM, Foyer améliorée à Kribi par OPED, IRGM)
- ❖ Opération sahel vert (MINEPDED/MINFOF)
- ❖ promotion et développement de énergies renouvelable (Electrification de 166 localités à partir de l'énergie solaire, projet urbain)
- ❖ Initiatives pilote REDD+ (PNDP, IUCN, CED, WWF, ADEID)
- ❖ Projet de la microelectricité
- ❖ Projet de renforcement des capacité de la société civiles dans l'elaboration des stratégie reed+ du Cameroun (region centre, sud, est oust, nord-oust) et GEF Small Grants)

What are the major existing policy, institutional, tactical & technological LEDS gaps in the country that need to be bridged to actualize these INDC priorities? Which gaps do these on-going initiatives address / addressed in the past?

- ❖ Sur le plan institutionnel tous les textes sont en cours de revision pour integration des aspects de CC,
- ❖ Loi cadre sur l'environnement de 1996, Loi forêt de 1994, Loi de 2003 sur les biotechnologie (OGM); Loi bio-securité; energie, gaps données météorologies (station météo), faibles coordination entre les institutions , absence de proactivités institutionnelles,
- ❖ ONACC peut combler tous ces gaps mais encore un problem d'opérationnalisation

Which of these planned / on-going initiatives do you think the Africa LEDS project can compliment at i) policy / planning level and ii) tactical / operational level?

- ❖ LEDS peut contribuer à améliorer sur tous les aspects

What Low Emissions Development ideas do you have that can be implemented through the Africa LEDS Project that will contribute most effectively to achieving climate resilient low emissions development that actualizes INDC in the country/area?

- ❖ Développement des énergies renouvelables
- ❖ Modernisation de l'agriculture de 2^{ème} génération
- ❖ Valorisation des déchets
- ❖ Promotion des engrais verts
- ❖ Reboisement et restauration des paysages

In implementing the country INDCs, kindly list sectors which would be most relevant for support in
i) strategic level LEDS policy planning ii) operational level LEDS modelling support (technology transfer; tactical capacity building etc.)

- ❖ Transport
- ❖ Forêt
- ❖ Dechets
- ❖ Agricultures
- ❖ Élevages

Based on foregoing questions, kindly list probable relevant activities and partners the Africa LEDS project can engage at i) strategic level LEDS policy planning ii) operational level LEDS modelling support (technology transfer; tactical capacity building etc.)

- ❖ Sedentarisation agricole
- ❖ Landuse planning
- ❖ Woodenergy
- ❖ Biogaz production

- ❖ Partnaires
- ❖ MINEPAT, MINEE, MINADER, MINEPIA,

- ❖ NGO, société civile
- ❖ Secteurs privé

Thank You!
